EXPERIENCE

MICROVERSE, *Remote*
Mentor (Volunteer), FEB, 2022 – Till Date
- Mentoring junior web developers, providing technical support through code reviews.
- Proposing improvements to code organization to improve code quality and overall performance.
- Providing advice and tips on how to maintain motivation and longevity in the program.

BaseAfrique, Lagos, Nigeria
Software Engineer, June 2019 – December 2021
- Developed New Enterprise Software and implemented new features.
- Effectively deployed solutions on servers within the organization's network.
- Troubleshoot problems, debugged, and corrected service and application issues.

Nouveau Riche Media Technologies LTD, Lagos, Nigeria
Intern, November 2018–April 2019
- Worked closely with designers to recreate front-end designs with HTML and CSS (SCSS) to soothe design mockups and prototypes
- Participated in the definition of crucial scenarios, use cases, and end-user experience.

EDUCATION

MICROVERSE, Jan 2022 - Till Date
Remote Full-stack Web Development Program, Full Time
- Spent 1300+ hours mastering algorithms, data structures, and full-stack development while simultaneously developing coding projects including front-end, back-end, and full-stack projects using Ruby on Rails, JavaScript, React, HTML, and CSS -- and included unit testing when applicable.
- Full-time program that required work across time zones while pair-programming with other software engineers located around the world.
- Leveraged Agile methodologies requiring excellent communication skills to share project status updates, plan daily workflow, create solid documentation, and attend daily standups.
- Developed skills in remote pair-programming using GitHub, industry-standard git-flow, and daily standups to communicate and collaborate with international remote developers.

NIIT, Jan 2017 - 2018
Diploma in Java Enterprises Apps with DevOps, Full time.
- Creating software engineering professionals in Java Technologies.

SKILLS

Front-End: JavaScript, React, Redux, Bootstrap, HTML5, CSS3

Back-end: Ruby on Rails, MySQL, Postgres, MongoDB, Node.js

Tools & Methods: Git, GitHub, Heroku, Netlify, TDD, Chrome Dev Tools

Soft-skills: Pair-programming, Remote development, Deadlines, Mentoring, Teamwork

Testing: Jest, Capybara, RSpec

PROJECTS

Math-magicians
- It is a Single Page App (SPA) that allows users to make simple calculations and read random math-related quotes.
- Built with (React, React-router)

Space-Travelers-Hub
- The web application provides commercial and scientific space travel services. The application will allow users to book rockets and join selected space missions using real live data from the SpaceX API.
- Built with (React, and React-router)

Budget-App
- This is a mobile web application where you can manage your budget by having a list of transactions associated with a category so you can see how much money you spent and on what item you spent your money on.
- Built with (Ruby, Rails, Postgres)
